

Fluid-thinkers needed, oh and thermal ones too...

We are looking for more team members with expertise in the worlds of fluid mechanics and heat transfer.

At Norton Straw, we provide specialist engineering, analysis and consultancy support to our clients across many industries, both in the UK and internationally.

Our technical work ranges from expertise-based advice and simple hand calculations to detailed simulation and modelling, like computational fluid dynamics (CFD).

All of our work is based on a solid understanding of the underlying physics and mindful of the need to produce practical answers that help our clients solve their technical challenges.

We are looking for someone who...

- Knows quite a bit about fluid mechanics and heat transfer, likes a technical challenge and isn't intimidated by unfamiliar problems
- Enjoys client and team interaction and takes responsibility
- Can demonstrate they can deliver engineering and technology services
- Has a degree or PhD or in a relevant engineering, science or applied mathematics discipline
- Wants the opportunity to work within a growing and dynamic team.

The role will require you to...

- Define and deliver technical work and manage projects, mainly in the fields of fluid mechanics and heat transfer but you will do other things too
- Work with clients to understand their needs and requirements
- Deliver high quality projects being aware of budget and timescales.

Why work for Norton Straw Consultants?

We provide the opportunity for individuals to develop their technical expertise and to get involved in wider activities of the business including managing projects, building client relationships and developing our technical capabilities and services.

One of our highest priorities is to run a business in which individuals take responsibility for delivering high quality services while enjoying what they do and we offer flexibility and a working environment that help support this.

It is an exciting time to join our team so if the thought of taking the initiative, developing yourself and embracing new challenges sounds exciting, we would like to hear from you.

How to get in touch

Please send your curriculum vitae with a covering letter explaining why you are the ideal candidate to careers@nortonstraw.com.

Good luck and we look forward to hearing from you.
