

## Information Technology Specialist

At Norton Straw, we provide specialist engineering, simulation and consultancy support to our clients across many industries, both in the UK and internationally. Our work relies on using high performance computers, effective management of data and flexibility of our computer systems to meet customer needs.

Thanks to sustained growth in demand of our services, we are now looking for an IT Specialist.

### We are looking for people who:

- Can provide support and direction across a range of IT needs in a growing and evolving business
- Will take responsibility and ownership of their own tasks and enjoy team interaction
- Would like a technical challenge and aren't intimidated by unfamiliar problems
- Would relish the opportunity to work within a flourishing and dynamic team

### Experience/requirements:

- Understand and can manage Windows networks and Microsoft 365 accounts
- Have familiarity with Linux-based operating systems
- Have experience of data back up and retention methods
- Understand networks including secure networking across two sites
- Are comfortable carrying out hardware upgrades
- Have experience of Hyper-V virtualisation software
- Understand cyber security
- Are familiar with distributed computing/HPCs

### Why work for Norton Straw Consultants?

One of our highest priorities is to run a business in which individuals take responsibility for delivering high quality services while enjoying what they do. We offer flexibility and a working environment that help support this aim.

It is an exciting time to join our team, so if the thought of taking the initiative, developing yourself and embracing new challenges sounds exciting, we would like to hear from you.

### How to get in touch

Please send your curriculum vitae with a covering letter explaining why you are the ideal candidate to join our team to [careers@nortonstraw.com](mailto:careers@nortonstraw.com), referencing the position applied for.
